

RetroFoam Testimonial from Laura and Rod Bytwerk in Perrysburg, Ohio

I love RetroFoam! We're saving 40% a month on our heating bill! Our home is a renovated farmhouse built in the 1940s. You could honestly hear the Northern Ohio wind hiss through the walls. Now our house is comfortable to sit in year round and there are no more drafts!

Easy, Effective Install

RetroFoam was the perfect solution for us to keep the cold out. Layer upon layer of additions and remodels made it virtually impossible to reach a clean wall cavity and insulate. But the RetroFoam truck arrived, out came the hoses, and the installers were gone that same afternoon. What a slick operation! I'm still amazed at the nooks and crannies the foam found its way into. It absolutely reaches everywhere.

Huge Savings

We are thrilled with how much money we are saving. I wish someone had told us sooner what a "no-brainer" financial move this would be. If you need insulation like we did, you really can't afford to miss the savings on your gas bill each month.

Quieter Home

An added bonus for us was noise reduction from the foam. Our farmhouse sits rather close to a busy state route: truck and motorcycle noise was extremely prominent. It's amazingly quiet now.

We can't say enough good things about RetroFoam. It did wonders for our old house and for our pocketbooks!
